Smart Tools. Safe Packaging.

MH-Pack

rose  plastic®
protective packaging pioneers

Protection That Thinks Ahead.

Modular milling heads stand for efficiency and resource conservation: Instead of replacing the entire tool, only the worn cutting section is replaced. This saves valuable raw materials such as tungsten and promotes responsible use of materials.

The MH-Pack builds on this concept. This packaging solution reliably protects modular milling insert heads and is designed for durable, repeated use – during transport, in storage, during tool changes, or directly at the end user's site.

Thanks to its design tailored to the interchangeable head systems, the MH-Pack requires no additional packaging or cushioning materials while still providing optimized packaging security. In this way, rose plastic combines product protection, resource conservation, and sustainability requirements in line with the PPWR.

VERSATILE OPTIONS

A wide range of clamping strips fits various wrench sizes, shank diameters, and geometries

SECURE FIT

The closure keeps the tool securely in the packaging

OPTIMAL HOLD

Matching clamping strips hold the milling head securely in place

Simple. Safe. Better.

Good packaging must provide protection while also being quick, secure, and intuitive to use. The MH-Pack was developed precisely for this purpose: Matching clamping strips hold the milling insert

head securely in place. These are designed to accommodate different wrench sizes, shank diameters, and geometries — even sintered variants can be packaged reliably.

SIZES

2 sizes for all common applications

IDEAL PRESENTATION

Transparent cover for clear visibility of the packaging contents

PERFECT HANDLING

Grooves in the base provide optimal grip for opening and closing the packaging

Material Suited to the Application

With the MH-Pack, the material is a key component of the packaging concept.

The base is available in ABS. ABS offers high dimensional stability and provides a sturdy, precise packaging base. Those who prefer the sustainable option can opt for recycled polypropylene.

DESIGNED WITH SUSTAINABILITY IN MIND.

MH-Pack is resealable and reusable.

Two Packs. One Smart System.

The MH-Pack is the perfect fit for modular tooling systems.

When combined with the BlockPack for the carrier tool, it creates a coordinated packaging solution for modular milling systems: Both components are properly protected, neatly organized, and professionally presented.

When the Packaging Becomes a Tool

To ensure safe handling of the milling head without injury or damage, the hinged cover can be used as a screw-in aid.

At a Glance

- perfect protection of sharp-edged and delicate milling heads
- efficient packing, secure and easy removal
- simple handling; easy to open and close due to incorporated grooves in the base
- the cap ensures injury-free and damage-free clamping of the interchangeable milling head
- clamping strips for wrench size and shaft diameter provide a tight fit for the milling head
- perfect tool presentation for the end user
- packaging can be labeled and sealed
- durable and reusable
- oil and moisture resistant

PACKAGING

Base and cover are packed separately in individual cartons

MATERIAL

- Base made from impact-resistant ABS or recylate
- Cover in Polypropylene (PP)

COLORS

- Cover in transparent
- Base in gray or in various attractive standard colors

HEAD LENGTHS

CUTTING EDGE DIAM.

STANDARD COLORS

Product Range

Article	Part type	Wrench size SW	Shank diam.	max. cutting edge diam.	max. head length LM4	PU
MH 18x21/1 B	Base in ABS					500
MH 18x21/2 B	Base in rPP					500
for ground milling heads:						
MH 18x4-8/1 C	Cover	4mm	6 - 8mm	13mm	28mm	500
MH 18x4-10/1 C	Cover	4mm	8 - 10mm	13mm	28mm	500
MH 18x5.5-10/1 C	Cover	5.5mm	8 - 10mm	13mm	28mm	500
MH 18x5.5-12/1 C	Cover	5.5mm	10 - 12mm	13mm	28mm	500
MH 18x6-8/1 C	Cover	6mm	6 - 8mm	13mm	28mm	500
MH 18x6-10/1 C	Cover	6mm	8 - 10mm	13mm	28mm	500
MH 18x6.5-13/1 C	Cover	6.5mm	11 - 13mm	13mm	28mm	500
MH 18x8-10/1 C	Cover	8mm	8 - 10mm	13mm	28mm	500
MH 18x8-12/1 C	Cover	8mm	10 - 12mm	13mm	28mm	500
MH 18x10-12/1 C	Cover	10mm	10 - 12mm	13mm	28mm	500
for sintered milling heads:						
MH 18x2.99-4.40-S/1 C	Cover	2.99mm	5.80mm	13mm	28mm	500
MH 18x3.94-4.40-S/1 C	Cover	3.94mm	5.80mm	13mm	28mm	500
